This catalogue is a selection of our products designed for designers, architects, and lighting professionals. It has been conceived as a resource to guide you in your creative journey, offering inspiration and tools to quickly identify options that best suit your visions.

Our experience in balancing form and function is reflected in every product, offering lighting solutions that speak to both contemporary aesthetics and timeless functionality.

The Ideal Lux team is ready to accompany you on this journey.

Raffaele Strano, CEO

A handwritten signature in black ink, appearing to read 'Raffaele Strano', written in a fluid, cursive style.

Light offers warmth, shelter, comfort, intimacy. Ideal Lux celebrates it through its products, essential lighting fixtures. The challenge it faces every day is to unite the design of the products and the immateriality of light to create personalized and unique spaces which can tell the story of those who animate them.

Anyone involved in the design of living spaces can find in Ideal Lux the ideal partner to define areas capable of telling the lives of their clients, creating contexts in which everyone becomes the protagonist of their own story. Environments that best represent the personality and taste of those who inhabit them.

Light is a form of pure energy that brings joy and not only allows us to see but also influences our mood and well-being.

Attention to people is central, which is why every lighting system is designed to enhance every moment and every place, giving the opportunity to express what is important to each of us.

Nowadays, light is no longer just functional for illuminating a space but elevates it, fully expressing the essence that the designer has sought to impart through geometries and materials.

Every space, when infused with the right light, takes on a deeper, more authentic, and vital meaning, recounting the different moments of our daily lives.

LIGHT IS

ABOUT MOMENTS

IDEAL LUX

PRESENTATION

Since 1974, Ideal Lux has been passionately dedicated to creating lighting furnishing accessories capable of satisfying every need. The *Selection* collection gathers some of the more than 3700 products offered by the company, designed to embrace a modern and design-oriented taste.

LIGHT TALES

BOTH THE LIGHT
AND THE MOMENTS
CAN BE
FLEETING.
THE LIGHT
THAT DISAPPEARS
BY TURNING OFF
THE SWITCH,
THE MOMENTS
THAT PASS
IN THE BLINK
OF AN EYE.
ALL THIS
MAKES THEM
UNFORGETTABLE.

Attention and dedication to the customer are the very foundation of Ideal Lux. Our Customer Care represents a fundamental pillar within the company, with an emphasis on reliability as our core value. We place the needs of people at the top of our priorities.

For us, quality cannot exist without a warranty. We have extended the coverage to 5 years on all our lighting furnishing accessories, to ensure the highest standards in the products and services offered at all times.

DISPLAY

Aluminum linear projector suitable for installation on three-phase track (Eutrac standard), available in three different lengths and with powder coating with white or black finish. The integrated power driver is located inside the track to minimize the volume of the visible product.

EGO

Linear system composed of an extruded aluminum profile and magnetically fastened lighting elements with mechanical safety lock. The system is available in matt black RAL 9005, matt white RAL 9016 or anodized satin brass, in the ceiling or suspension installation mode (LOW and HIGH), recessed without edge that disappears into the plasterboard (RECESSED), rapid recessed into the plasterboard (RECESSED EASY) or recessed with edges for plasterboard or paneled false ceilings (RECESSED TRIM).

Possibility of composition with different light modules depending on the desired arrangement, modifiable if necessary.

Ideal for lighting small and large environments where ample flexibility and high quality lighting is required, for example museums, commercial, residential and retail spaces.

EOS

Extruded aluminum cylindrical tracklight with symmetric optic and variable opening beam from narrow to wide (20°-55°), suitable for three-phase track installation. White or black powder coating, 355° turning head and 90° adjustable, the power driver is included and located in the cylindrical body of the projector itself. Ideal for installation in big rooms, where great flexibility and high color rendering is required, such as museum, commercial and retail spaces.

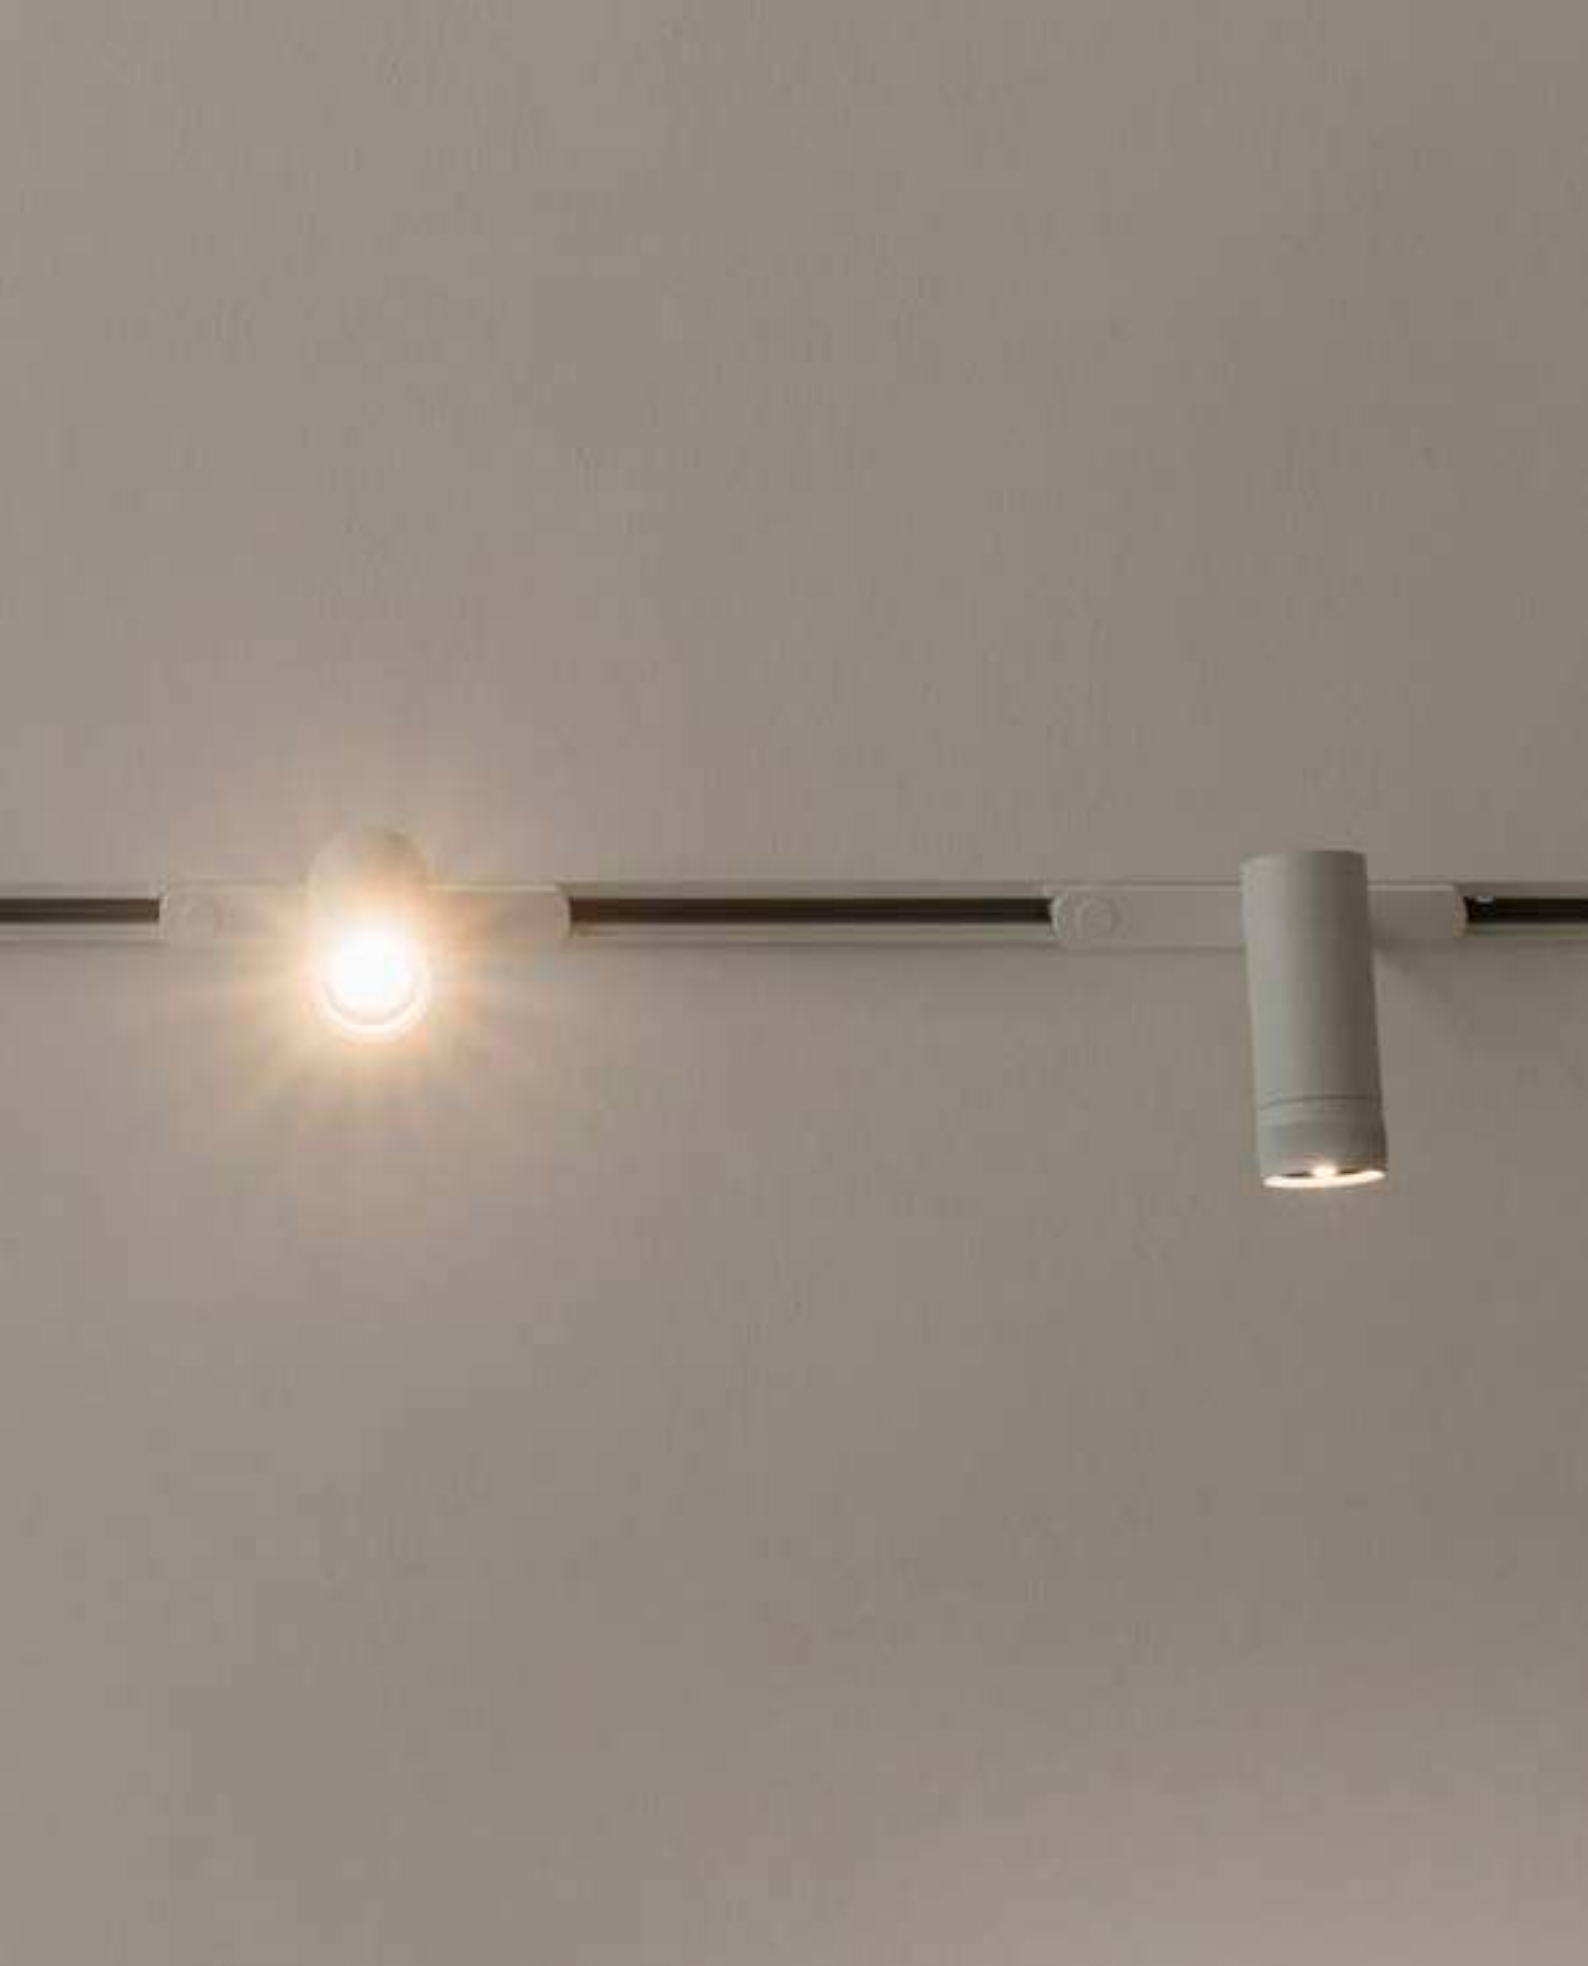

FLUO

Linear system of lamps with extruded aluminum, 50 mm wide and 80 mm high body. Modules available in two lengths: 1200 mm and 1800 mm, which can be assembled according to the desired arrangement. The system is available in three different arrangements: the WIDE diffusing module, the BI-EMISSION module with component for indirect lighting and the ACCENT module with glare control.

FOX

Cylindrical aluminum projector suitable for installation on three-phase track. White, black or satin brass powder coating, 350° rotating head and 90 ° adjustable, the power driver is included and is located in the cylindrical body of the projector itself. 1-10 V or DALI dimmable versions available. Perfect for lighting the small and medium size environments that require wide flexibility for arrangement, where great flexibility and color rendering is required, such as commercial and retail spaces, and an optimal performance-price ratio.

LINUS

Linear aluminum lamp with direct and indirect light for wall installation. The lamp is modular and can be used individually or in a continuous line. White or black finish available.

QUICK

Extruded aluminum cylindrical tracklight suitable for installation on three-phase track. White or black powder coating, 355° turning head and 90° adjustable, the power driver is included and located in the cylindrical body of the projector itself. Ideal for installation in big rooms, where great flexibility and color rendering is required, such as museum, commercial and retail spaces.

TESI

Flexible steel tape for wall-to-wall application, used as a support for the strip led application, it can be a light source for indirect lighting. 5 or 10 meters maximum length and its minimal section disappears inside the environment. This guarantees a result of extreme formal elegance. Available finishes: steel, white or black. Ideal for environments of historical and architectural feature which already have strong personality.

BENTO

Modular system of recessed elements consisting of an adjustable source, reflector and ring, with optional shielding lenses and accessories; black and white finish; recessed ring available in single round or square shape, or rectangular in double or triple version for the installation of multiple and independent sources; optional anti-glare band for backward movement of the source in non-adjustable mode; selection of three different emission angles.

GAME

Recessed spotlight in die-cast aluminum with round or square ring, suitable for installation on plasterboard or paneled ceilings. Chrome, matt white RAL 9001, matt black RAL 9011, matt gold RAL 1032 finishes. Available versions: with external frame (TRIM), retractable without frame for plasterboard (TRIMLESS), or with frame and improved front protection (IP65).

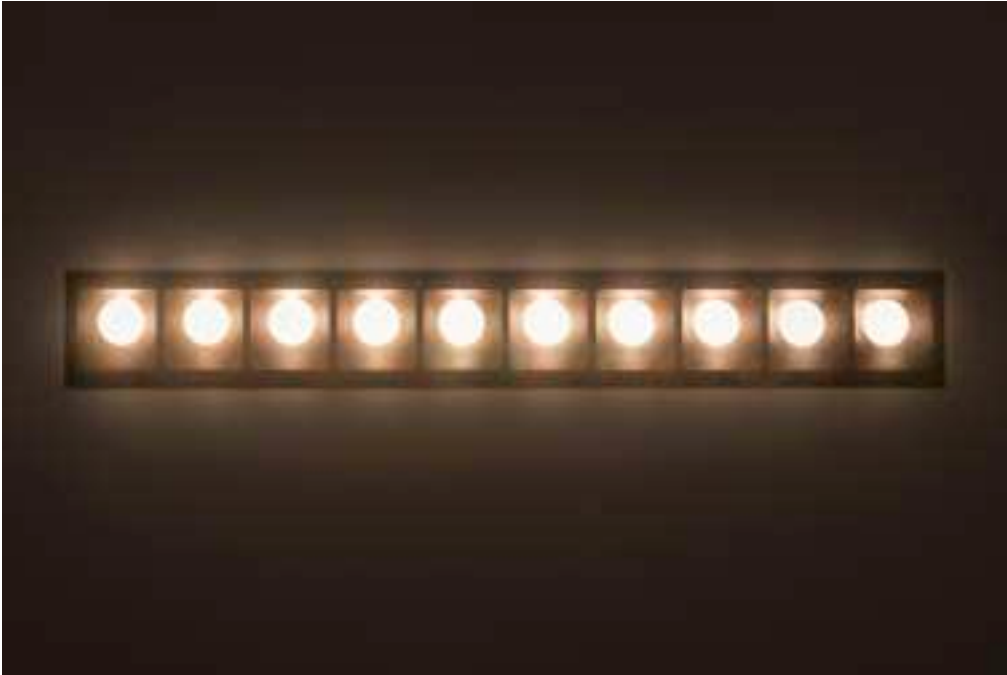

LIKA

Rectangular LED recessed projector in die-cast aluminum painted black or white, with shiny black polycarbonate reflector. Available in TRIM and SLIM versions with frame for installation on panels or ceilings, or TRIMLESS with hidden recessed edge for installation on plasterboard ceilings.

NOVA

Recessed spotlight in die-cast aluminum with round ring, suitable for installation on plasterboard or paneled ceilings. Matt white or matt black finish. Source adjustable 360° and extractable up to 90° in relation to the vertical axis. The high color rendering and maximum orientation flexibility make it ideal for exhibition spaces and for the enhancement of products in showrooms and sales areas in the retail sector.

VIRUS

Recessed aluminum mini-spotlight with round ring, suitable for installation on plasterboard or paneled ceilings. Matt white, matt black, matt gold finish. SMD LED technology; available in 3000K color temperature; $CRI \geq 90$; IP20 protection; insulation class II; LED useful life 30,000 h L70B50. The high color rendering and small dimensions make it ideal for accent lighting in recesses and shop windows in domestic and retail interior environments.

Technical icons

Class I Elctrical safety guaranteed by main insulation and additional protective conductor (earthing) connected with metal lamp frame. Earthing is obligatory.

Class III Electrical safety guaranteed by very low power supply (less than 50 Volt). Earthing excluded.

Class II Elctrical safety guaranteed by main insulation and double or reinforced insulation. Earthing not necessary.

Mark of conformity to European Community Safety regulations.

Symbols

Lamp with rechargeable battery included.

Lamp with presence detector included PIR (Passive InfraRed).

Item made of stainless steel 316.

High-tech product with high quality materials, intended for professional use.

NOTES:

- The indicated prices are public prices VAT excluded.
- Ideal lux s.r.l. reserves the right to make, at any time and without notice, all the changes necessary to improve the quality of the items included in this catalogue. For the most updated features, please check the documentation available on our website (www.ideal-lux.com).
- Our products with Class I and II work with nominal Voltage of 220-240 Vac 50/60 Hz. All our products comply with EU legislation.
- Whenever purchased separately as "optional", the DIMMABLE DRIVER will be already included in the product as replacement for the default on-off driver: only one driver will be supplied.
- The Watt indicated in the catalogue express the NOMINAL power of the lighting fitting including

- source and driver, when present. The Lumen measures referred to the lighting fittings with integrated LED source are nominal, namely referred to the source. We Kindly invite you to check photometry files for the actual Lumen of the single lighting fittings. For further information and updates.
- The UGR rate is not a characteristic of the fitting itself, but of the installation. The UGR values reported in this catalogue are calculated taking into consideration an ideal installation and are regrouped into blocks <10 <13 <16 <19 <22. It is recommended to calculate the specific UGR according to your installation.
 - The useful life of the LED sources of all the products in the catalogue refers, when it is not differently declared, to the L70B50 value.
