BESPOKE LIGHT CREATIONS

WE BRING LIGHT TO YOU IN ITS PUREST FORM...

Manooi believes that a well-thought-out lighting concept can create a uniquely personal universe: an empowering and affirming space for individuals. The home of timeless crystal chandeliers, Manooi strives to bring light into life, creating new realities every day.

Devoted to interior design & architecture
Manooi was founded in 2006, by the creative designer couple, Judit Zoltai and János Héder. Judit is a porcelain artist, János an architect and interior designer. Their special alliance gives Manooi the power to remain exceptional in the world of luxury crystal chandeliers.

Ever since its establishment, the company has been focused on designing and creating lighting fixtures with a special meaning behind them. János uses his own life experiences in designing the collections. Due to this passion and vocation, Manooi has become esteemed worldwide as a manufacturer of inimitable crystal chandeliers. “Light creates space – as an architect I work with light sources as determining elements of a given space,” says János Héder, who invites us into the “Manooi Universe”, an entirely new lighting experience.

СВЕТ – НАШЕ ВДОХНОВЕНИЕ

Мы, в Manooi уверены, что хорошо продуманная концепция освещения может создать уникальную личную вселенную: пространство для вдохновения и расширения своих возможностей. Дом неподвластных времени хрустальных люстр Manooi несет свет в жизнь, создавая новые вселенные изо дня в день.

Посвящается дизайну интерьера и архитектуре
Manooi была основана в 2006 году дизайнером Яношом Хедером и художницей Джудит Золтай. Под их чутким руководством Manooi остается уникальной компанией, создающий роскошные световые инсталляции.

С момента своего основания компания была сосредоточена на разработке осветительных приборов с особым смыслом. При создании коллекций Янош использует свой жизненный опыт. Благодаря этой страсти и призванию Manooi получила мировое признание как производитель хрустальных люстр, неподвластных времени. «Свет создает пространство - как архитектор я работаю с источниками света как с важнейшими элементами данного пространства», - говорит Янош Хедер, который приглашает нас испытать «Вселенную Manooi», совершенно новый опыт освещения.

我们为您带来最纯粹的光

Manooi 认为，一个考虑周到的照明理念可以创造一个独一无二的个人宇宙：一个赋予个人力量和肯定的空间。作为永恒水晶吊灯之家，Manooi 努力将光引入生活，每天创造新的宇宙。

致力于室内设计与建筑
Manooi 成立于 2006 年，由创意设计夫妇 Judit Zoltai 和 János Héder 创立。
Judit 是一位瓷器艺术家，János 是一位建筑师和室内设计师。他们强强联手让 Manooi 成功在奢华水晶吊灯世界中保持着独一无二的特色。

自成立以来，公司一直专注于设计和创造意义非凡的照明灯具。János 用自己的生活经验设计了系列产品。凭借这样的热情和专业能力，Manooi 已成为全球著名的永恒水晶吊灯制造商。
“光创造了空间——作为一名建筑师，我在设计工作中一直将光源作为一个空间的决定性元素。” János Héder 说道，他还邀请我们体验一种全新的照明体验——“Manooi 宇宙”。

MANUFACTORY

The Manooi workshop is a cradle of creative activity where devoted and talented young artists brainstorm, draw, assemble and reassemble peerless lighting creations on a daily basis. While the lead designers, Judit Zoltai and János Héder, share their overarching vision with them of how to bring harmony and balance into their chandeliers through architectural maximalism, they always keep the following sentiments in focus: Bringing light to a space in its purest form. / Inspiration is drawn from the world around us and found in natural sources of light. / Timeless, contemporary designs transcend passing trends.

The Manooi atelier is where these magnificent lamps take shape. Every Manooi chandelier is the product of a long process from planning to realization by our experts. Manooi’s quality control procedures ensure that production undergoes a rigorous inspection process so that each lighting creation meets and exceeds the highest standards. A special area of the workshop is dedicated to the design of Manooi’s bespoke chandeliers and to product development.

ПРОИЗВОДСТВО

Мастерская Manooi - колыбель творческой деятельности, в которой талантливые молодые дизайнеры сообща придумывают новые идеи, рисуют планы, играют, отдыхают, занимаются мозговым штурмом и моделируют потрясающие световые решения. В то время как ведущие дизайнеры Джудит Золтай и Янош Хедер делятся с ними своим всеобъемлющим видением того, как внести гармонию и баланс в свои световые творения с помощью архитектурного максимализма. Ключевые элементы: Свет формирует пространство / Источником вдохновения является окружающий нас мир и естественные источники света / Современный дизайн выходит за рамки преходящих тенденций.

В мастерской Manooi обретают форму эти великолепные световые решения. Каждая люстра Manooi - это продукт длительного процесса: от проектирования до реализации нашими специалистами. Процедуры контроля качества Manooi гарантируют, что продукция проходит строгий процесс проверки, чтобы каждое созданное световое решение соответствовало и превосходило самые высокие стандарты. Особое место в мастерской посвящено дизайну персонализированных люстр Manooi на заказ и разработке продукции.

制造

Manooi 工场是创意活动的摇篮，投入而天才的年轻艺术家们每天都在进行头脑风暴、绘画、组装和重新组合独一无二的照明设计。首席设计师 Judit Zoltai 和 János Héder 将通过建筑极繁主义将和谐与平衡融入照明设计的主要愿景传达给艺术家们，与此同时，他们还始终专注于以下理念：将最纯粹的光引入一个空间/这个灵感来自我们身边的世界，是在自然光源中发现的。/永恒、当代的设计超越了过去潮流。

这些杰出的照明创作诞生于 Manooi 工作室。我们的专家全程参与了每一盏 Manooi 吊灯的设计到生产。Manooi 的质量控制程序确保生产经过严格的检验，保证每一个照明创作都能满足甚至超过最高标准。工场有一个专门用于设计 Manooi 定制吊灯和产品开发的特殊区域。

CRYSTALS

Manooi chandeliers are only made with premium-quality crystals: full-cut octagon pieces specially carved to recall the look of diamonds. This special cut helps to absorb natural light and to create the incomparable sparkling effect that only a crystal can provide. Its optical traits can break down visible light into spectra, resulting in colour combinations like those of a rainbow.

We use various sized crystals to give a streamlined and an airy effect to our lighting creations. As a final touch, we decorate the chandeliers with various shapes and styles of crystal pendants.

КРИСТАЛЛЫ

Люстры Manooi изготавливаются только из кристаллов высшего качества: восьмиугольные кристаллы полной огранки, специально обработанные, чтобы напоминать внешний вид бриллиантов. Эта особая огранка помогает поглощать естественный свет и создавать уникальный сверкающий эффект, который может обеспечить только кристалл. Оптический эффект кристаллов может разбивать видимый свет на спектральный, что приводит к цветовым сочетаниям, подобным цветам радуги.

Мы используем кристаллы разного размера, чтобы придать нашим люстрам обтекаемую форму и воздушный эффект, а на финальной стадии мы украшаем их хрустальными подвесками различных форм и стилей.

水晶

Manooi 吊灯只使用优质水晶：全切割八边形雕刻水晶，像钻石一样。这种特殊的切割工艺有助于吸收自然光，实现水晶独有的闪光效果。晶体的光学效应可以将可见光分解成光谱，产生彩虹一样的光彩。

我们使用各种尺寸的水晶，为我们的灯具带来流线型外观和通风效果。最后，我们还使用各种形状和风格的水晶挂饰装饰吊灯。

SYMBOL OF UNIQUENESS

In 2015, Manooi introduced a special crystal called “Artica”, designed by János Héder and produced by SWAROVSKI. Today, Artica crystal represents the company’s logo and its first ever design. This uniquely designed Artica crystal certifies the origins of your chandelier, that it is a qualified Manooi masterpiece.

Fjord conveys the beauty of Nordic sparkling ice, a gorgeous sight appearing on a sea horizon. Exceptional in the Manooi product range because of its vertical arrangement, Fjord is a shimmering waterfall of glimmering crystal, illuminating the staircases and atriums in which it is installed. Used independently, or as part of a group installation, Fjord dazzles and charms. Fjord can be ordered in three different versions: ceiling, pendant and floor lamp, making it an extremely versatile design solution.

HALO

Halo is named after the optical phenomenon that one can sometimes observe in the sky – a mystical circle encompassing the Sun or the Moon.

Halo was designed with the intention of maintaining an apparent airiness by using a minimum of matter without ever compromising on the quality or the effect rendered. This one-of-a-kind piece reminds us of the excellent capacity and phenomena that light can create. Every crystal is carefully assembled into small branches, emerging like light beams that would be covered with frost and diffract the light into thousands of sparkles.

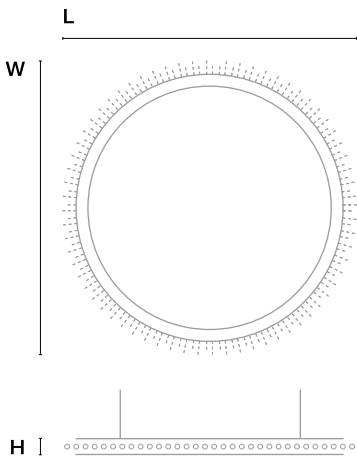

Halo can be installed either vertically or horizontally depending on your conceptions.

360° SPARKLE

An additional sparkle on the top of a chandelier provides a gorgeous 360 degree shimmering from every perspective. The majority of Manooi's standard catalogue model chandeliers are also available in versions designed to be viewed from above. These models are recommended for atriums, staircases, and hotel lobbies, where the chandeliers are visible from 360°. These versions, denoted by a '+TOP', have crystal trimmings all around their frames.

When your space requires a custom lighting design, we provide flexible service to fulfil your wishes and enhance customised interiors. Every one of our tailor-made chandeliers is the fruit of a common planning process by our team of developers to provide an exclusive and personal illumination to your interior.
